

Introducing the Dual Enrollment *Freshman Transition* Institute

Sponsored by
Santa Barbara City College

Offered as a part of

Focus on **FRESHMEN** July 17-19, 2011
Los Angeles Airport Marriott

To complement one of the largest and most successful dual enrollment programs in the country, Santa Barbara City College added a Dual Enrollment Freshman Transition (DEFT) program and has watched as high school freshmen develop informed 10-year education and career plans and gain self-confidence as learners, all while earning three units of college credit. With a more accurate perception of the world and exciting, individualized plans, these students have a newfound interest in academic performance and, consequently, look forward to promising futures.

Imagine what this change in perspective could do for your students!

No need to start from scratch. At the Dual Enrollment Freshman Transition Institute, your team of high school and college administrators will learn about creating an effective DEFT program from the innovators themselves. Receive all the information you need—from policy details related to a dual enrollment program to creating buy-in for the program to transforming the school culture into one that gets both students and faculty enthusiastic about school as the first step on the road to a fulfilling life.

deft

\ˈdeft\

adjective

1. characterized by facility and skill
2. dexterous; nimble; skillful

Each of the seven sessions will be interactive, because the Dual Enrollment Freshman Transition Institute is outcome focused. You'll leave Focus on Freshmen 2011 with a copy of the SBCC Dual Enrollment manual along with specific, structured worksheets completed in each sequential session. The result: Your team will develop their own plan for beginning a DEFT program within your college/high school system by the conclusion of the three-day conference.

Designed for teams of high school and community college leaders, attendance is by application and space is limited to allow for personalized attention.
